Dear Mr. Vanderpool:

Re: Approval of NOI to Revise Mining Operations, LaSal Mine, M/037/026, San Juan County, Utah

Your NOI to Revise Mining Operations, submitted May 5, 1989, is hereby approved. The NOI concerns the installation of a 7 foot diameter ventilation hole to be located 4,000 feet northwest of the Beaver shaft.

Umetco has received letters of approval from the Division of Water Rights and the Division of Water Quality Control for the installation and pumping of several wells associated with the hole. We discussed the need for the submittal of a formalized reclamation description for this vent hole. The approval will be complete once the Division has this in hand.

Sincerely,

Holland Shepherd
Reclamation Specialist/Permit Lead
